

ACCOMPLISHED
AIRCRAFT MAINTENANCE

SWIFT TG MAINTENANCE

Swift TG Maintenance provides Part M certified aircraft maintenance for a wide variety of Aircraft, covering the entire spectrum of your service requirements.

Airframes, Engines, Propellers, Composites, Fabric work, Avionics inspections,

Re-painting and Re-finishing, and Repair Schemes.

AIRCRAFT MAINTENANCE

Swift TG Maintenance is fully equipped to perform maintenance on almost any light aircraft currently flying. We can perform major and minor scheduled maintenance, defect rectification and Repairs/Modifications and ensure that your aircraft meets regulations affordably and with as little downtime as possible.

With decades of accumulated experience in avionics and internationally recognised qualifications, we are confident that our services will be able to meet our clients exacting requirements, which include:

- Engines
- Airframes
- Composites
- Fabric
- Avionics
- Paint and Re-finishing
- Undercarriage
- Propellers
- Repair schemes

AIRCRAFT PAINTING AND FINISHING

Swift TG Maintenance provides a variety of refinishing services, including complete aircraft refurbishment, colour schemes, professional polishing and fabric.

We draw upon over thirty years' experience in this specialist field and provide our services to a variety of aircraft - ranging from private single seat aircraft up to the business multiple seat aircraft.

Swift TG Maintenance also offers aircraft servicing consultancy, providing comprehensive advice on the most cost effective ways of refinishing your aircraft or component cost effectively and with minimum disruption.

We follow strict quality procedures and ensures that any changes made to an aircraft or components comply with current regulations and aircraft log books are updated.

AIRCRAFT FABRIC WORK

Swift TG Maintenance has over 30 years aircraft refinishing and fabric repair (Irish Linen & Ceconite) experience, including complete aircraft refurbishment, colour schemes and professional polishing, ranging from private single seat aircraft right up to the business multiple seat aircraft.

We can also provide comprehensive advice on the most cost-effective ways of refinishing your aircraft or component with minimum amounts of fuss.

PART M CERTIFICATE

Swift TG Maintenance are compliant with the EASA Part M Subpart G, Continuing Airworthiness Management Organisation and Subpart F, Maintenance Organisation for both metal and composite aircraft, with Subpart I privileges to issue your 'Airworthiness Review Certificates' as recognised by the UK's Civil Aviation Authority.

This means that the company is able to offer certified maintenance for a wide variety of aircraft, as well as issue Airworthiness Review Certification to these aircraft. Under one roof, we provide continued airworthiness support, maintenance and modification.

Our quality assurance procedures ensure that all the requirements of the EASA Part M certification are met. This means the best possible standards are achieved on all aircraft while in the hands of Swift TG Maintenance.
